

TANUSHREE NATH

Product Designer

EXPERIENCE

Jan 2025 – Present

GAMECHANGE – Product Designer (Remote, Singapore)

- Designed enterprise banking dashboards (Bitnudge, Engage, Ticket Portal) for portfolio tracking, KPI monitoring, transaction oversight, and support workflows, driving an **18% increase in high-value opportunities pursued**, **42% faster access to critical financial insights**, and **90% cross-platform design consistency**.
[Read Case Study](#)
- Led mobile-first onboarding and verification flows (Quick Apply, Document Verification App) for Know Your Customer (KYC) and Know Your Business (KYB) processes, simplifying digital account activation and compliance verification for SME and banking clients.
- Designed Shopkey, a Shopify-style e-commerce store builder, and Wasp, an AI-driven WhatsApp customer service platform, enabling SMEs to launch stores faster and manage real-time customer engagement seamlessly.
- Designed the information architecture and workflows for a Remittance Admin Interface, empowering teams to oversee users, monitor transactions, and configure campaigns; **cut admin task completion time by 30%**.

Nov 2023 – Mar 2024

BILD – Product Designer (Hyderabad, India)

Led end to end product design in collaboration with cross functional stakeholders and the Leadership Team.

- Revamped the Bill of Materials (BOM) workflow, achieving **4x faster BOM creation**, **300% increase in BOM visibility**, and **70% reduction in data entry errors**, driving operational efficiency. [Read Case Study](#)
- Executed in depth Product Dissection to refine overall UX/UI, driving an **18% increase in client acquisition** and strengthening customer trust through refined usability.
- Architected and rolled out a scalable Design System for Bild, standardizing design patterns, accelerating feature delivery, and fostering visual consistency across the entire product ecosystem. [Read Case Study](#)

Jun 2021 – Feb 2022

RESTLESS MONKS – Junior UX Designer (Remote, India)

Collaborated with the founding Designer and leadership team to create 0-1 products in the influencer marketing space, aligning design direction with business strategy.

- Shaped the design and branding for InfluencerBit (now Engagebud), establishing a strong product identity and cohesive visual language.
- Executed user research, interaction design, and rapid prototyping to validate concepts and deliver high fidelity experiences under tight deadlines.
- Leveraged Agile methodology to complete the MVP within a three week sprint, delivering a **14x ROI for clients**, driving an average of **400 orders per campaign**, and generating over **1M impressions per campaign**. [Read Case Study](#)

ACADEMIC PROJECTS

Jan 2023 – May 2023

THESIS PROJECT – Researcher and Author (Hyderabad, India)

A Study on Gamification to enhance User-Experience on E-commerce platforms.

- Investigated the role of gamification in e-commerce by conducting a mixed methods study with **110 participants**, applying factor analysis and correlation techniques to evaluate the impact on engagement, satisfaction, and loyalty.
- Delivered actionable recommendations for e-commerce platforms, highlighting how gamification strategies improved client acquisition, boosted user enjoyment and engagement by **over 70%**, and strengthened long term brand loyalty.
